**Site
Coordinator:**

Directions: Site coordinator shall list all hazardous material(s) being submitted for review & approval by the Hazardous Materials Committee. Site coordinator shall include the material type, material quantity and an updated MSDS/ SDS form for the material(s) being submitted for approval in the applicable spaces below. Once requested materials have been approved, both parties shall initial and date this form. A copy of this form will be electronically digitized and provided to the site coordinator for their records.
