

## **INTERSCHOLASTIC SPORTS**

The interscholastic athletic program of this District shall be considered as an extracurricular part of the total school program. It is neither required nor part of the basic instructional program.

The purposes of athletic programs in the secondary schools shall be:

1. To provide a wide basis of participation in both team and individual sports in interscholastic competition.
2. To develop a strong program of competitive sports:
  - a. By encouraging and developing talented athletes in all sports and providing sufficient opportunity, especially at the middle school level, for students to develop individual ability.
  - b. By encouraging the development of team spirit among all members of the team and their coaches.
  - c. By developing good attitudes or pride, sportsmanship, and ethical behavior in students, participants and spectators.
  - d. By developing and maintaining a good relationship between athletic teams and the student body, faculty, administration and community.
  - e. By teaching fundamentals and techniques of each sport in a progressive sequence as appropriate for students at higher grade levels.
  - f. By providing student athletes with an awareness of potential opportunities as afforded them through competitive athletics.

In keeping with the above goals, the Board of Education (the Board) shall seek to provide girls' sports on an equal opportunity basis with boys' sports and shall permit and encourage coeducational teams.

The Board shall encourage students, faculty and the community to recognize the value of athletics in relation to the total school program.
