

INTRAMURAL SPORTS

Colorado Springs School District 11 (the District) shall maintain intramural sports programs at the District middle schools. The middle school intramural programs are based on numerous studies that indicate a positive correlation among academic performance, attendance, positive school climate and a student's participation in cocurricular activities. The programs shall demonstrate the cooperative efforts that exist between the academic and cocurricular programs in support of the opportunity to transfer and reinforce learning.

The programs shall offer a variety of activities for students to be involved. The environment shall be an inclusive and positive atmosphere that meets the developmental needs of all students by providing opportunities to explore, participate, play and experiences areas of special interest.
