

## STUDENT ACTIVITIES (COCURRICULAR AND EXTRACURRICULAR)

Student activities shall be regarded as a student privilege and a part of the total educational program and shall be used as a means of developing wholesome attitudes and good human relations as well as knowledge and skills.

All student activities shall be carried on under the authority of the Board of Education and its delegated administrators.

Athletics and social activities held in the name of or under the auspices of a school shall be under the general supervision of the principal and the sponsor or sponsors of that activity. The principal shall provide adequate supervision, administer student finances and approve all student activities with the assistance of delegated members of the faculty.

Districtwide events shall require the approval of the superintendent or designee.

School-sponsored activities should not be scheduled on Sundays. However under very exceptional circumstances, some activities may be scheduled only with prior approval of the superintendent. Community education sponsored activities shall not come under this limitation.

Extracurricular activities require as much careful planning and supervision as the academic subjects. However, care shall be taken that these activities do not take precedence in importance over the subject matter areas but remain in the position of supplementing the actual courses of study.

All activities affiliated with a school shall be open to all students of the school without regard to race, color or national origin.

All students elected to student offices or who represent their schools in extracurricular activities should have and maintain good citizenship records both in and out of school.
